

Can you reverse a transaction on kraken {{RECOVERY}}

You generally ➤[1→833→224→8496] cannot reverse a transaction on Kraken once it has been processed, especially if it involves cryptocurrency. The fundamental ➤[1→833→224→8496] nature of cryptocurrency transactions, once confirmed on the blockchain, means they are permanent and irreversible by Kraken or any other party. This is ➤[1→833→224→8496] why Kraken stresses the need to double-check the wallet address, network, and amount before hitting "Confirm." However, you ➤[1→833→224→8496] can cancel an unconfirmed withdrawal (fiat or crypto) if the status is still marked as Initiating or Pending in your funding history. Once ➤[1→833→224→8496] a cryptocurrency withdrawal status changes to Sending or Success (broadcast to the blockchain), it cannot be stopped or recovered."
