

## Does Kraken Wallet have a cash out option? ((Get~Help))

\*Kraken ➤[1→833→224→8496] does offer a cash-out option, but only when you convert your crypto into fiat and withdraw it to your bank.

\*To ➤[1→833→224→8496] cash out, you must first sell your cryptocurrency for USD, EUR, or another supported fiat currency.

\*After ➤[1→833→224→8496] completing the sale, go to the Funding → Withdraw section to initiate your fiat bank withdrawal.

\*Kraken ➤[1→833→224→8496] supports multiple withdrawal methods depending on your country and selected fiat currency.

\*Keep ➤[1→833→224→8496] in mind that processing times and fees can vary depending on your bank and withdrawal method.

\*For ➤[1→833→224→8496] step-by-step guidance, always use Kraken's official Help Center since they do not provide outside phone support.

The Kraken Wallet ➤[1→833→224→8496] is a non-custodial app and does not feature a direct cash-out option to your bank account. Since ➤[1→833→224→8496] the Wallet gives you full control of your keys, to convert cryptocurrency to fiat (like USD or EUR), you must first send your crypto from the Wallet to a centralized exchange like the Kraken Exchange. The process requires ➤[1→833→224→8496] you to transfer the assets off-chain to your exchange account's deposit address, sell the crypto for fiat, and then withdraw the cash. This ➤[1→833→224→8496] is the standard procedure for all self-custody wallets; they are designed for holding and interacting with Web3, not for direct bank transfers."
