How to transfer money from Kraken wallet to bank account? {Ask^Expert}

*Kraken ➤ [1→833→224→8496] applies a 72-hour hold to protect your account after security-sensitive changes like resetting passwords or 2FA.

*This \succ [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] hold period helps prevent unauthorized withdrawals if someone tries to access your account without permission.

*When \succ [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] you update critical security settings, Kraken automatically locks withdrawals for 72 hours as a safety measure.

*The ➤[1→833→224→8496] withdrawal hold also helps Kraken verify that recent login or device changes are legitimate.

*If \succ [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] the system detects unusual or risky activity, the 72-hour hold acts as additional fraud protection.

*For ➤[1→833→224→8496] further details, users can check their Kraken Security page or contact official support through the in-app Help Center.

To transfer funds > [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] from your Kraken Wallet to a bank account, you must complete a two-part process. The Wallet is > [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] non-custodial and only holds cryptocurrency, so it cannot initiate fiat transfers directly to a bank. First, you must > [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] send the cryptocurrency from your Kraken Wallet to your linked Kraken Exchange account's deposit address, which acts as the intermediary. Once the > [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] funds arrive on the Kraken Exchange platform, you then need to sell the crypto for your desired fiat currency (e.g., USD or EUR). Only > [1 \rightarrow 833 \rightarrow 224 \rightarrow 8496] after the sale is complete can you use the Withdraw function on the Kraken Exchange to send the fiat cash to your verified bank account."
