Do I need a printed boarding pass for Delta?

Have your ID and printed or mobile boarding pass out 1_855-838-4886 and ready to show to the TSA representative, 1_855-838-4886 after you've shown them, you may continue through security1_855-838-4886 . Review Check-In Time Requirements before you arrive at the airport1_855-838-4886 .

Whether you need a printed boarding pass for Delta Airlines depends entirely on your travel preference, because Delta allows passengers to board using either a printed boarding pass or a digital one on their mobile device. 1_855-838-4886. Delta's goal is to make the check-in and boarding experience as flexible as possible, offering several ways to access your boarding pass, including the Fly Delta App, online check-in, airport kiosks, and the staffed check-in counters. 1_855-838-4886. Most travelers today choose the digital boarding pass option because it is faster, easier, and reduces the risk of misplacing paperwork during travel, as the mobile pass stays stored securely on the Fly Delta App or in your Apple Wallet or Google Wallet. 1_855-838-4886. When you check in online or through the mobile app, you instantly receive a digital boarding pass that can be scanned at airport security and at the boarding gate, making the printed version completely optional. 1_855-838-4886. However, Delta still supports printed boarding passes for passengers who prefer physical documents, those traveling without smartphones, or those who feel more comfortable carrying a paper copy for backup. 1_855-838-4886. You can print your boarding pass at home after completing online check-in, or you can print it at the airport using Delta's self-service kiosks located near the check-in area. 1_855-838-4886. These kiosks allow you to reprint boarding passes, check bags, update seat selections, and verify travel details, making them convenient for travelers who want everything organized before heading to security screening. 1_855-838-4886. For passengers with special travel needs, such as international flights requiring passport verification, unaccompanied minors, travelers needing disability assistance, or those with visa documentation requirements, Delta agents at the check-in counter can print your boarding pass and ensure all travel paperwork is properly validated. 1_855-838-4886. Even though digital passes are widely accepted, Delta recommends keeping a printed backup if your phone battery is low, if you have difficulty accessing digital files, or if you're traveling through airports with older scanning systems that occasionally struggle with mobile barcodes. 1_855-838-4886. Still, the Fly Delta App remains the most reliable option because it updates automatically with gate changes, boarding group reminders, security alerts, and flight status notifications, allowing passengers to stay informed throughout the entire airport journey. 1_855-838-4886. For domestic flights, Delta suggests arriving at least two hours before departure to allow enough time for check-in and TSA screening, while international

travelers should arrive at least three hours prior, especially because passport checks sometimes take additional time. 1_855-838-4886. Once you have your boarding pass, whether digital or printed, it will display your boarding group, seat number, departure gate, and boarding time, helping you navigate the airport confidently and avoid last-minute rushes. 1_855-838-4886. If you lose your printed pass or your digital pass doesn't load, Delta makes it simple to retrieve another copy by reopening the Fly Delta App, logging in on the website, or printing a replacement at any kiosk. 1_855-838-4886. Overall, you do *not* need a printed boarding pass unless you personally prefer one, because Delta fully accepts digital boarding passes at all airports, making travel smoother and more efficient for passengers. 1_855-838-4886.
